Universal:

Children and young people who make good overall progress in most areas of development and receive appropriate universal services, such as health care and education. They may also use leisure and play facilities, housing or voluntary sector services.

Early Help:

Children and young people whose needs require some extra support. A single universal or targeted service or two services are likely to be involved; these services should work together. A Team Around the Family meeting to share information and agree an Early Help Plan to support the child and family is helpful. No need for specialist services.

Targeted Help:

Vulnerable Children. Children and young people whose needs are more complex. This refers to the range, depth or significance of the needs. A number of these indicators would need to be present to indicate need at Level 3. More than one service is involved, using a Team Around the Family approach, Early Help Plan and a Lead Practitioner to co-ordinate multi-agency support. Targeted Early Help can support at this level.

Specialist:

Children and young people whose needs are complex and enduring and cross many domains. More than one service is normally involved, with a co-ordinated multi-agency approach and a Lead Professional, commonly in a non-statutory role. At times statutory intervention may be required.
