

## Inter-Agency Escalation Procedure for Professionals with Child Welfare Concerns

\*\* The job title and job description of the professional with safeguarding responsibility within an organisation will vary between partner agencies. Individual organisations should ensure that as part of their induction training employees are aware of who to contact to discuss a safeguarding concern or where to seek advice/supervision. It is anticipated that escalation concerns will be handled as a priority and within seven of initial receipt. If the concerns are urgent and a child is at risk of Serious Harm contact Surrey C-SPA on 0300 470 910, (if out of hours the Emergency Duty Team on 01483 517898) or Police on 999
